CC1, INC. ANNOUNCES APPOINTMENT OF BRYAN BEGLEY

New Hampshire based manufacturer of automatic register controls adds new Sales Engineer

Portsmouth, New Hampshire, January 16, 2017 - New Hampshire based digital register control manufacturer CC1, Inc. is pleased to announce the addition of Bryan Begley as Sales Engineer. Bryan comes to CC1 with great experience in capital equipment sales with several other manufacturers of highly specialized machinery. In his capacity as Sales Engineer, Bryan will be calling on accounts in New England, New York State, the Midwest and throughout the Southern states.

Bryan remarked that, "I am very pleased to be joining CC1. With more than 37 years of experience, CC1, Inc. has proven they are the leaders in print registration controls. Their products consistently reduce press setup time and waste, helping web printers in all market segments run more efficiently. I am excited to be working with a great team of CC1 field support and internal customer service personnel. With the tremendous industry reputation CC1 has for printing solutions, I look forward to applying my equipment sales experience to expand CC1's product sales to new customers."

John DeCarlo, Vice President & General Manager of CC1, Inc. commented that, "Bryan's experience will be instrumental in creating better and more widespread awareness of CC1's technology, application expertise, and product benefits to the label and packaging, direct mail, newsprint, and commercial offset markets. CC1's camera-based technologies for automatic

register control and video web inspection products are well known throughout the commercial printing industry. We are looking forward to Bryan assisting CC1 in our sales growth of new and existing markets.” DeCarlo continued, “We are looking for Bryan to meet with potential customers and analyze their specific application needs. Then, working with the CC1 technical team, deliver CC1 register control solutions to specifically address the client’s individual process challenges.”

About CC1, Inc.

CC1, Inc. is the premier provider of digital automatic register control, web video, register motorization, and pre-registration solutions for today's web printers. Long known for their application expertise and product quality, web printers in the packaging, newsprint, commercial offset, and direct mail segments rely on CC1 for solutions to their challenges in color and process registration.
